The Datamax E-Class family is a lightweight, space-saving line of thermal printers designed with leading edge technology for a multitude of label and tag printing applications.

These printers are engineered for small size but packed with big features including an advanced 32-bit multi-tasking processor with two megabytes of memory, a serial and a parallel communication interface, and a three-button control panel. In addition, a full complement of industry standard linear bar codes as well as the complex two-dimensional symbologies such as MicroPDF417, Datamatrix, Maxicode, Aztec, and TLC39 are resident in the printer's memory.

With all this power loaded into such a small footprint, the E-Class family is the printer choice for a wide variety of low to medium volume labeling applications ranging from the needs of those in an office or research facility to those of a shipping or transportation center. And depending upon the model you choose, a four-inch per second print speed, a 300 dot per inch print resolution, plus the ability to accommodate a five inch roll of media can provide added versatility for all of your applications.

All E-Class printers share an assortment of options including a cutter, a label present sensor, a three megabyte Flash expansion module, and an assortment of international character font sets. Also, connectivity is never an issue because the E-Class printer can be easily networked with the Datamax DMX-100 Ethernet print server.

When it comes to big performance in a small package, there is just one choice - the E-Class family of printers. They are the most affordable entry-level printing solution available in the marketplace today.

5 mil to 55 mil (203 dpi) / 3.3 mil to 40 mil (300 dpi) "X" dimension in picket fence or ladder orientations		
1" – 4.3" (25.4mm – 109.2mm)		
Roll-fed or fan-fold materials, die-cut or continuous labels; perforated or continuous tag/ticket stock		
.375" – 24" (9.5mm – 609.6mm)		
.0025"0100" (.0635mm254mm)		
"See through" for liner backed die cut labels and tags. Left bias reflective sensor for black mark label media		
For use with optional cutter		
Industry standard ribbon widths; 0.5" (13mm) ribbon core, 361' (110M) in length		
Plastic construction, clear top window to easily monitor media supply levels		
Code 3 of 9, UPC-A, UPC-E, Interleaved 2 of 5, Code 128, EAN-8, EAN-13, HIBC, Codabar, Plessey, UPC 2 and 5 digit addendums, Cor 93, Postnet, UCC/EAN Code 128, Telepen, UPS MaxiCode, FIM, PDF417, USD-8, Datamatrix, QR Code, Aztec, TLC 39, Micro PDF417		
Ten alphanumeric fonts from .08" (2mm) to .25" (6mm) including OCR-A, OCR-B, CG Triumvirate™ smooth font from AGFA®.		
True-Type, AGFA <sup>®</sup> Intellifont™, Bitmap		
Modified IBM® Code Page 850; includes characters for English and most European, Scandinavian and Spanish speaking countries		
All fonts expandable vertically and horizontally up to 24x; fonts and graphics can be printed in four directions: 0°, 90°, 180° and 270°		
.PCX, .BMP and .IMG files		
Any font or graphic field can be printed as a normal or reverse image		
2MB DRAM; 1MB Flash		
Centronics® Parallel port, RS232 at 600 to 38,400 BPS		
Used for creating label formats using virtually any Windows®-based program. Included on Datamax Accessories CD, or via our web si at www.datamaxcorp.com		
External power supply; specify appropriate power supply and cord when ordering		
40°F to 95°F (4°C to 35°C)		
7.05" H x 8.77" W x 10" D (179mm H x 223mm W x 254mm D)		
Printer: 5.2 lbs. (2.4kg)		

## DATAMAX E-CLASS OPTIONS:

• LABEL PRESENT SENSOR

• FLASH MEMORY EXPANSION

• LIGHT DUTY CUTTER

• EXTERNAL MEDIA SUPPLY STAND

• ILPC PLUG-IN MODULES

• STANDARD CUTTER

• EXTERNAL KEYBOARD

• DMX100 ETHERNET PRINT SERVER
